Hattersley AT. Maturity-onset diabetes of the young: clinical heterogeneity explained by genetic heterogeneity. *Diabet Med* 1998; **15**(1): 15–24. The abstract incorrectly referred to insulin promoter factor 1 as 'insulin protein factor 1' and the section entitled 'Phenotype of HNF1 α Mutations' drew attention to Figure 4 rather than to Figure 2. We sincerely apologize to the author for these errors and to our readers for any confusion which may have been caused.
